

EFFICIENT CONCRETE RECYCLING

ABSTRACT OF THE DISCLOSURE

5 A concrete plant with robust recycling capabilities and high energy efficiency
is disclosed. In one aspect, a concrete recycling machine used at the concrete plant
includes at least a slurry vessel that receives slurry provided from concrete being
returned, a motor that drives an agitation device that agitates the slurry in the slurry
vessel, and a control system that controls at least one of duration and frequency with
10 which the motor drives the agitation device.
